

# Join us in building one of the largest shooting centers in the world!

The Ruutikangas Shooting Center project was launched in 2012 and its goal is to build Europe's most modern shooting center in Liminka, Finland. The center will provide ranges and facilities needed to organize international championships, including Olympic events, in all shooting disciplines.

As the only level 1 shooting range in Finland, Ruutikangas will provide superb shooting facilities for all competitive shooters, as well as for hunters.

The project is carried out by a team of about 30 construction, funding, fundraising, and coordination experts. The municipality of Liminka has hired two full-time employees to look for public funding for the project.

The environmental permit for the Ruutikangas project was granted in 2015, and construction work on the site will commence in 2017. The budget for years 2017-2019 is approximately 11 million euros.

The opening ceremony will take place on Midsummer 2019.

## Construction timetable

2017	2018	2019
Road network	Rifle ranges	Range office
Shotgun ranges	Pistol ranges	Maintenance buildings
Moving target ranges		Practical shooting ranges

Ruutikangas is managed by Oulun seudun ampumaurheilukeskus ry, who now cordially invite all shooting enthusiasts and companies in the shooting industry to support the project.
