

# [B] Stage Information Sheet

<b>Stage Number</b>	<b>5</b> ( Course designer: Vitaly Kryuchin )
<b>Stage Name</b>	Entry
<b>Type of Scoring</b>	Comstock count, short course
<b>Targets (type &amp; number)</b>	4 IPSC targets, 1 Pepper Popper, No Shoots
<b>Distances</b>	1-11 m.
<b>Possible Points</b>	45 ( 5.3 % of match total )
<b>Minimum Rounds</b>	9
<b>Start Position</b>	Gun holstered in condition 3. Lying on the back on the bed, with hands behind the head and legs straight and together.
<b>Starts</b>	Audible signal
<b>Stops</b>	On last shot
<b>Penalties</b>	As per IPSC rules
<b>Procedure</b>	On the start signal, go through the door B before taking out your gun and loading it in area C. After that, engage all targets in any order without violating the boundary lines. All targets must be engaged within the area C. Best two hits on IPSC targets will be scored. Only a fallen metal target counts as a hit. If the shooter's foot touches the fault line or ground beyond it while engaging targets -> one procedural penalty for each shot fired.
<b>Briefing</b>	Start at position A, with Gun holstered in condition 3. Lie on your back on the bed, with hands behind your head and legs straight and together, with your head either on the right or the left end of the bed.
<b>Design Notes</b>	The bed must stay put even when the competitors spring to their feet, so the legs of the bed must be sunk firmly into the ground. The distance between the PP1 and the boundary line is 11 m. The triggering cable must be covered if it is possible for a bullet to hit the cable when T1, 2 and 3 are engaged from the left and the bullet goes through a target. In addition, make sure that the PP1 cannot be engaged at the same time as T1, T2 or T3.
